

SCHOLAR'S FIELD KIT

Prepare to embark on your instructional mission with a well-stocked toolkit. This is your "Scholar's Field Kit" designed to equip you with the information and tools you need in the field. Since each school is different and unique and procedures vary, please take note of the way we do things here at IWU. These items in your "toolkit" will give you space to be the best teacher possible without worrying about the administrative details that are necessary everywhere.

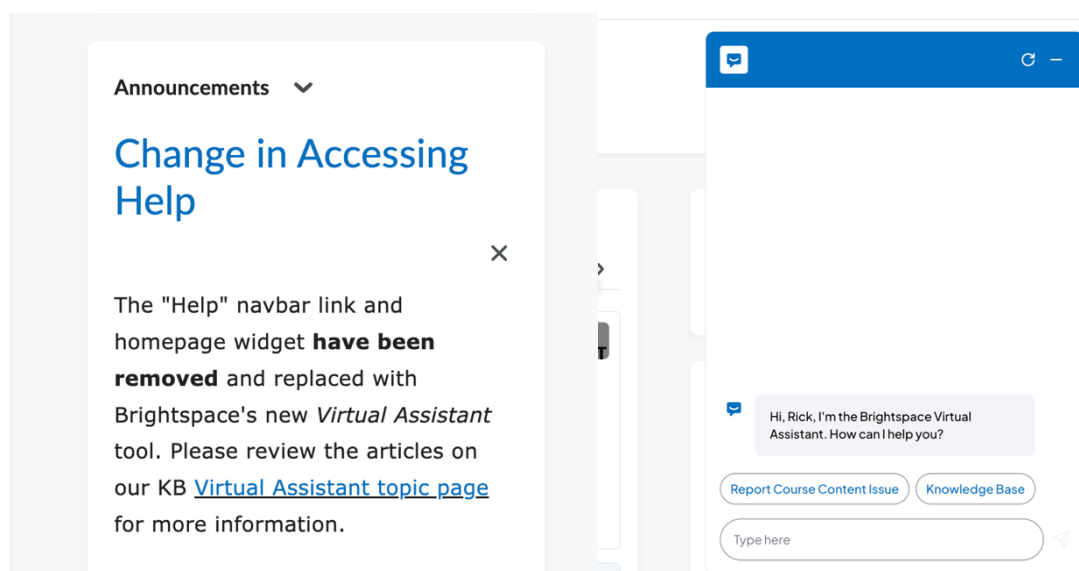

Use this interactive compendium to access IWU procedures, departmental contacts, and resources quickly.

THE FIRST "TOOL" WILL HELP YOU WHEN THINGS ARE BROKEN.

1. Course Content Issues

Use the "Report Course Content Issue" link available through the **Virtual Assistant** tool on the lower right side of your screen in Brightspace if you need help with course content and/or resource functionality or have questions and concerns. Using the "Report Course Content Issue" link creates a ticket and notifies the school and other IWU support staff of your issue. For more information about how to interact with the **Virtual Assistant**, visit the [IWU Knowledge Base Virtual Assistant](#) articles.

THE SECOND "TOOL" WILL HELP KEEP THE PROJECT ON TIME.

2. Late Policy

The College of Adult and Professional Studies (CAPS) exists to aid students in successfully achieving academic program outcomes in associate, bachelor, masters, and doctoral degrees, as well as a variety of non-degree courses and programs. To encourage consistent student success, all coursework must be submitted by their published deadlines to earn full credit. However, students often face significant circumstances that preclude them from submitting work by the published due date. The course instructor may extend the time allowed to submit assignment(s) beyond the published due date. Late submissions may incur penalties at the discretion of the course instructor.

THE THIRD "TOOL" HELPS KEEP YOUR STUDENTS ON THE PATH OF HONESTY.

3. Plagiarism Protocol

Please review the latest copy of the [Academic Honesty](#) policy.

Suspected AI misuse (e.g., using Chat GPT to generate a written assignment) presents a teachable moment for faculty members and students. Turnitin and other third-party tools are **unreliable** for detecting AI use with certainty, although the detection tools can be a starting point for ongoing investigation. **Dr. Sarah Lopienski**, Executive Director of Student Engagement, and her team [regions@indwes.edu] handle suspected cases of plagiarism and guide faculty as they determine if students misused AI. Learn more about the CAPS plagiarism process in this short video, [Plagiarism and the Online Regions Office](#).

WHAT DO YOU DO WHEN THE JOB IS DONE? THE FOURTH "TOOL" WILL HELP WITH GRADE SUBMISSION.

4. Final Grade Submission

- a. **Access Self-Service:** Navigate to the [myIWU website](#) and click on the Self-Service option.
- b. **Select Your Course:** Click on the Faculty Tile. Choose the course for which you need to submit final grades. You'll see a list of current and some future courses, depending on the term.

- c. **Enter Grades:** Click on the Grading tab, then select the Final Grade tab. Enter grades directly into the final grade column. You can select a grade from the dropdown menu or type it in manually. There is no need to fill in the "never attended" or "last date of attendance" columns.
- d. **Verify Grades:** After entering grades, click on the Overview tab to verify that all grades were accepted correctly. If you find any errors or omissions, return to the Final Grade tab to make necessary corrections.
- e. **Complete the Process:** Once all grades are correctly entered and verified, you can navigate to another area of Self-Service or log out. Remember, there is no specific 'submit' button; grades are saved as you enter them.

5-STAR. VIEWING YOUR WORK REVIEWS

5. End-of-Course Surveys

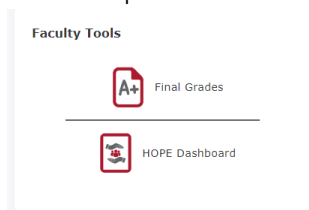

Usually, your end-of-course survey results will be emailed to you within two weeks after the course end date. If you miss or do not receive an email, you can access EOC data in the [Faculty Data Center](#) within two weeks after a course ends. Select **Faculty EOC Private** (5-point scale) to view your results.

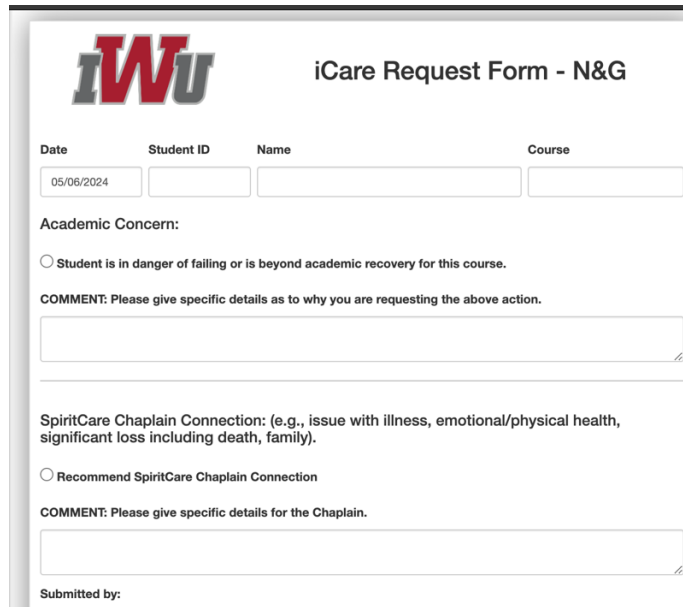

WHAT IF YOUR "PROJECT" IS TOO BIG?

6. Student Support

You can view your student's course engagement data and connect with their advisors on the **HOPE Dashboard**. Access the HOPE Dashboard icon when logged into your course. Select and fill out the iCare form (i.e., red circular icon) to contact the student advisor about engagement concerns and questions after personal attempts to connect with the student.

IWU iCare Request Form - N&G

Date: 05/06/2024 Student ID: Name: Course:

Academic Concern:

☐ Student is in danger of failing or is beyond academic recovery for this course.

COMMENT: Please give specific details as to why you are requesting the above action.

SpiritCare Chaplain Connection: (e.g., issue with illness, emotional/physical health, significant loss including death, family).

☐ Recommend SpiritCare Chaplain Connection

COMMENT: Please give specific details for the Chaplain.

BROKEN TOOLS

7. Tech Support

Contact **IWU Support** if you have issues accessing your course, login credentials, and using your IWU computer. Please note that IWU Support is not available 24/7. Their contact information is available on the [IWU support](#) website (scroll down to the bottom of the page). Faculty and students also have **Brightspace Support** available 24/7/365. When needing help, you may choose chat, phone, or email. To contact Brightspace support, access the **Virtual Assistant** icon on the lower right side of your screen in Brightspace (screenshot above), and type "Brightspace support" into the text box; a "Contact Support" button will become available for selection. Contact Brightspace Support if you need assistance with:

- the grade book
- providing feedback
- posting an announcement
- and more.
