

SMEPIP: From Anecdote to Evidence

The Service Member Engagement
& Policy Intelligence Platform

We Make Critical Policy and Funding Decisions Based on Incomplete, Anecdotal Data

This Data Gap Creates Systemic Friction, Risk, and Inefficiency

Service Member

- Delays in accessing critical skills
- Unexpected funding gaps
- Uncertainty during transition

ESO / Counselor

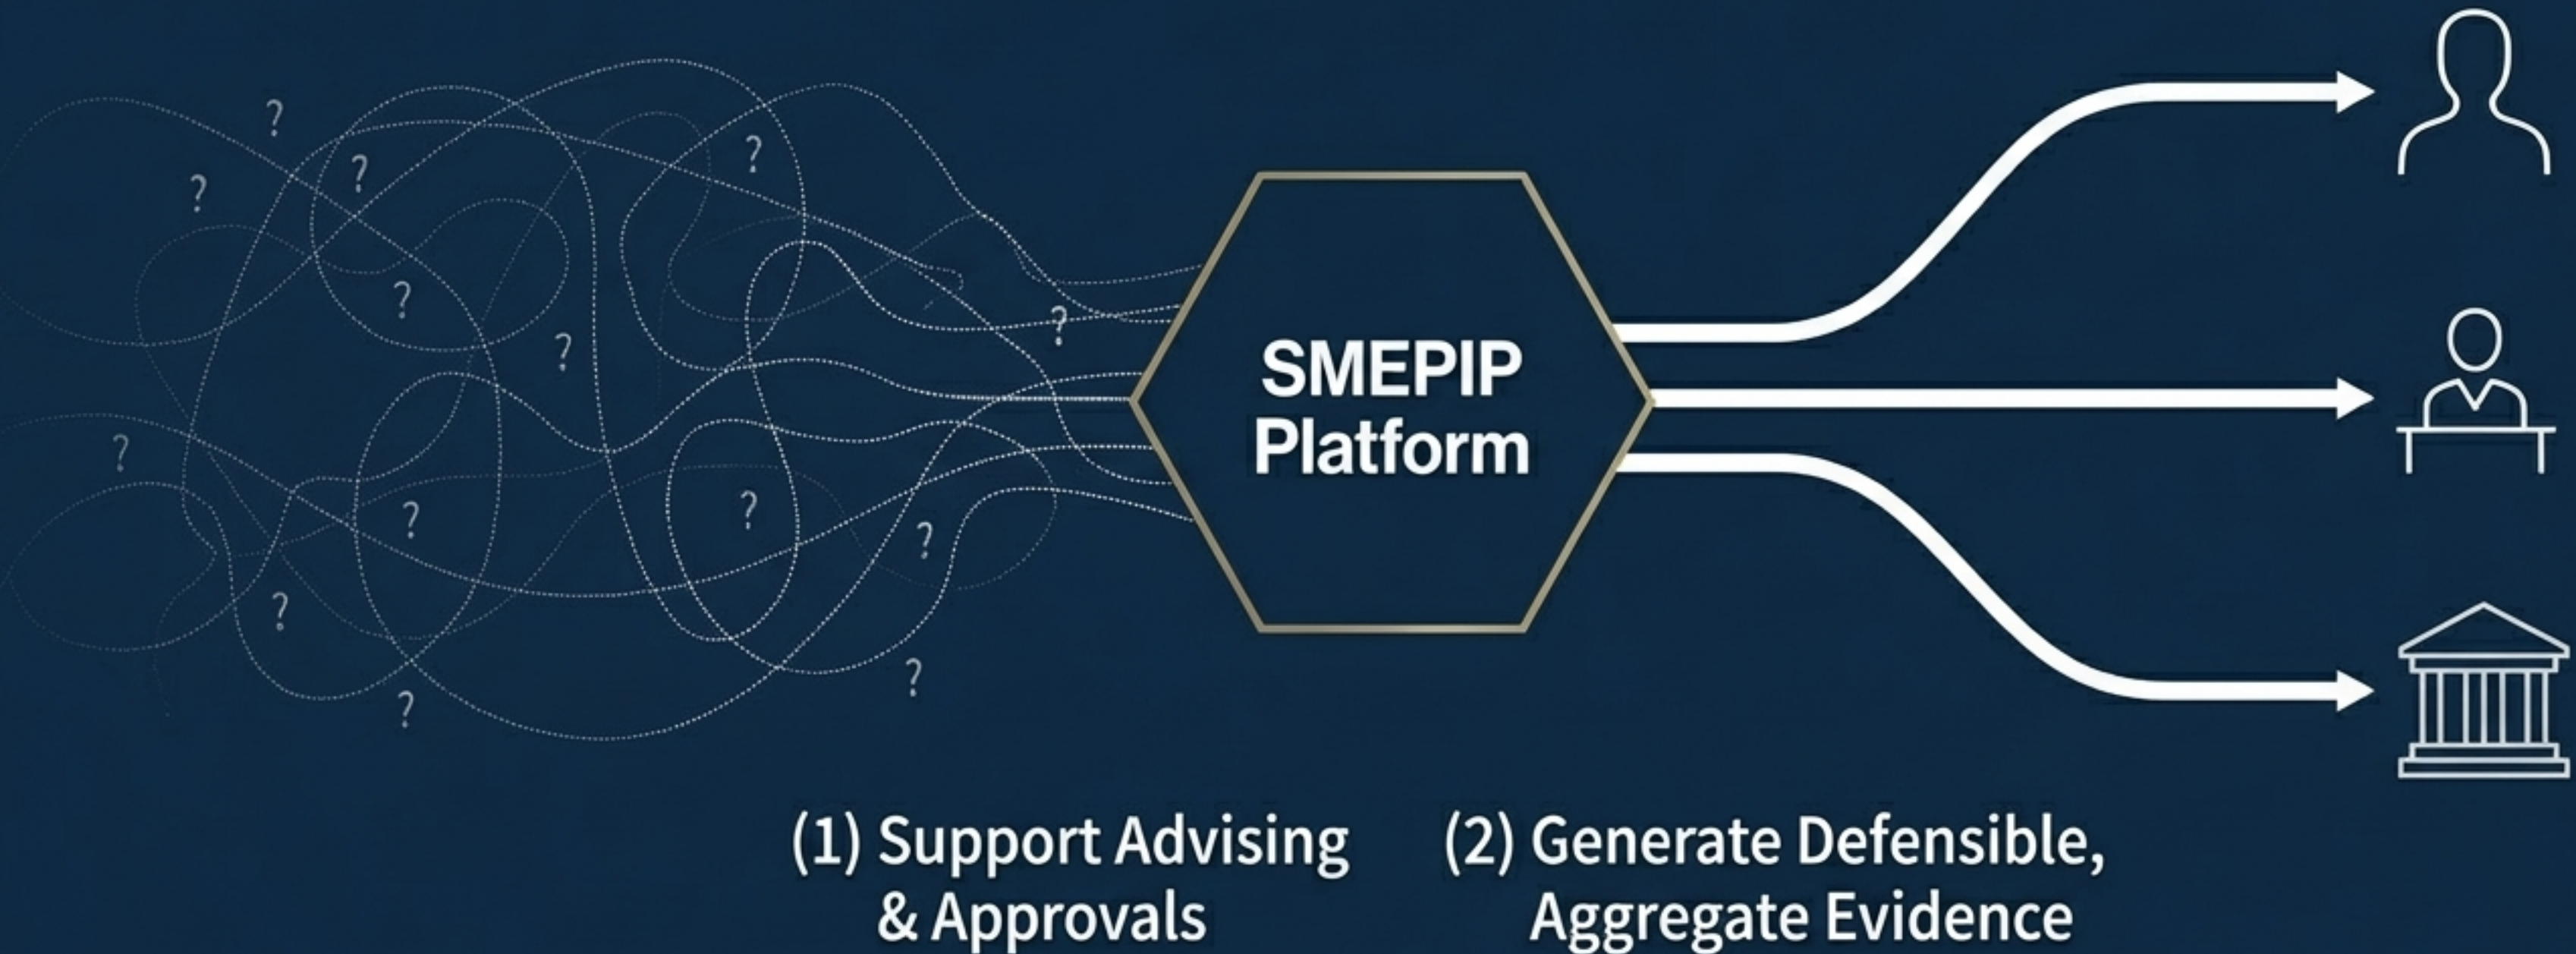

- Crushing administrative overload
- Professional burnout
- Inability to flag systemic issues

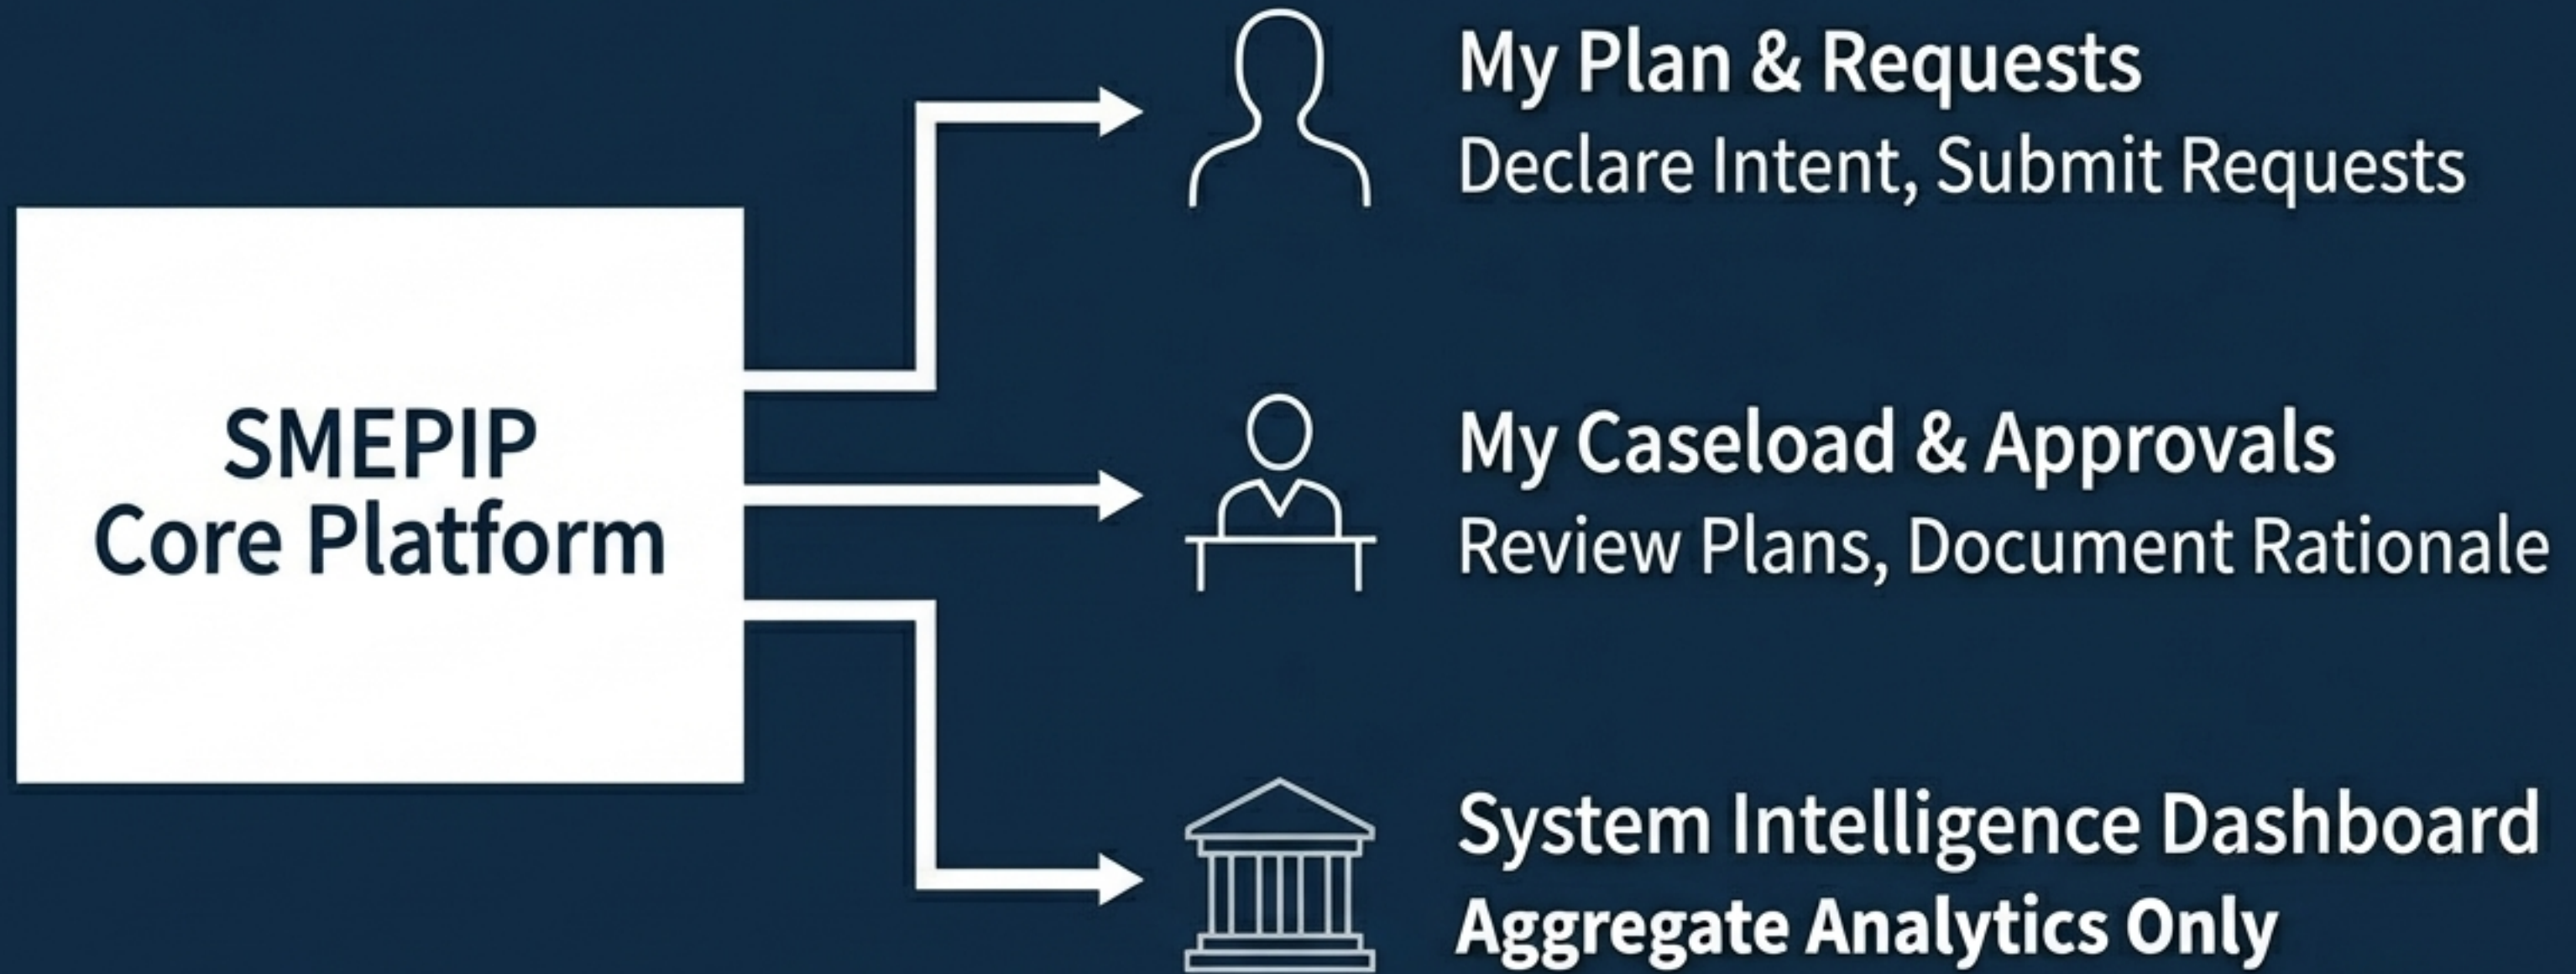

USG / Leadership

- Significant policy blind spots
- Reactive, crisis-driven problem-solving
- GAO / OMB compliance risks

A Governed, Human-in-the-Loop Interface to Make Our System Legible, Measurable, and Improvable.

SMEPIP Provides a Single, Authoritative Interface with Role-Based Access.

Four Functional Modules Turn Individual Engagements into System-Level Intelligence

Engagement Console

(Operational) Advising & Approvals

Demand Tracker

(Data) Making Invisible Demand Visible

Voice of the Veteran (VoV) Intake

(Signal) Early Warning on Welfare & Strain

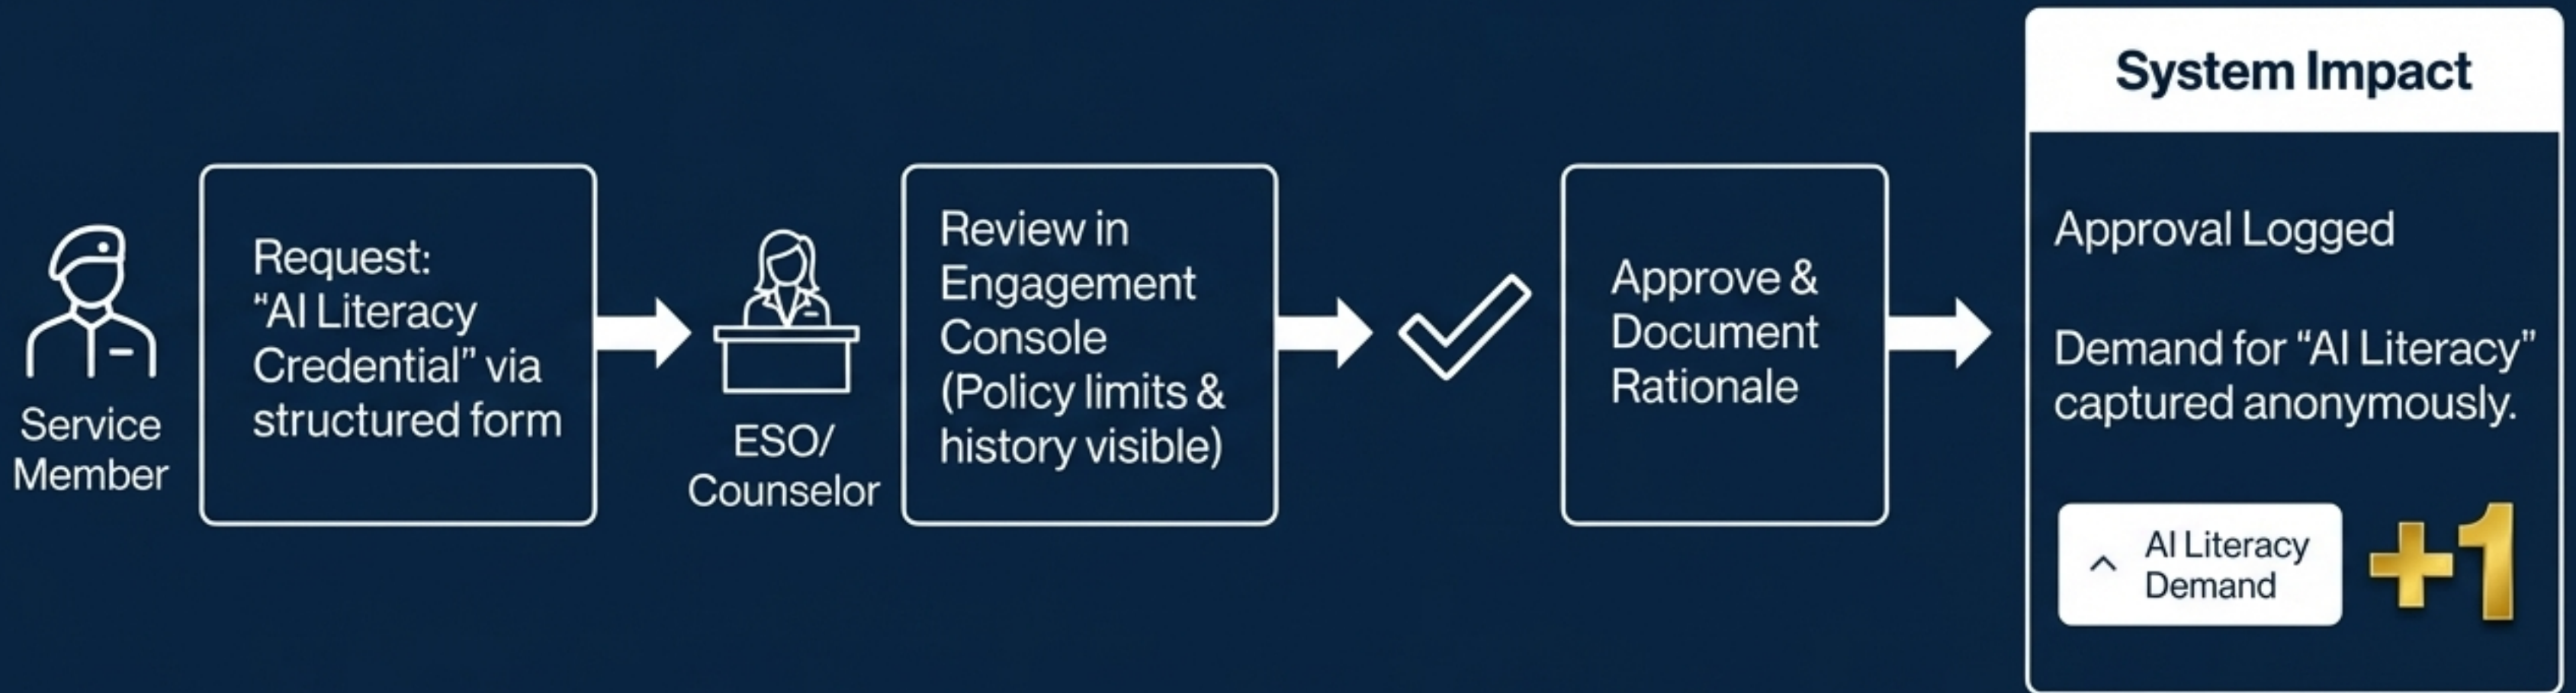

Intelligence Dashboard

Intelligence Dashboard

(Evidence) Aggregated Insights for Decision-Makers

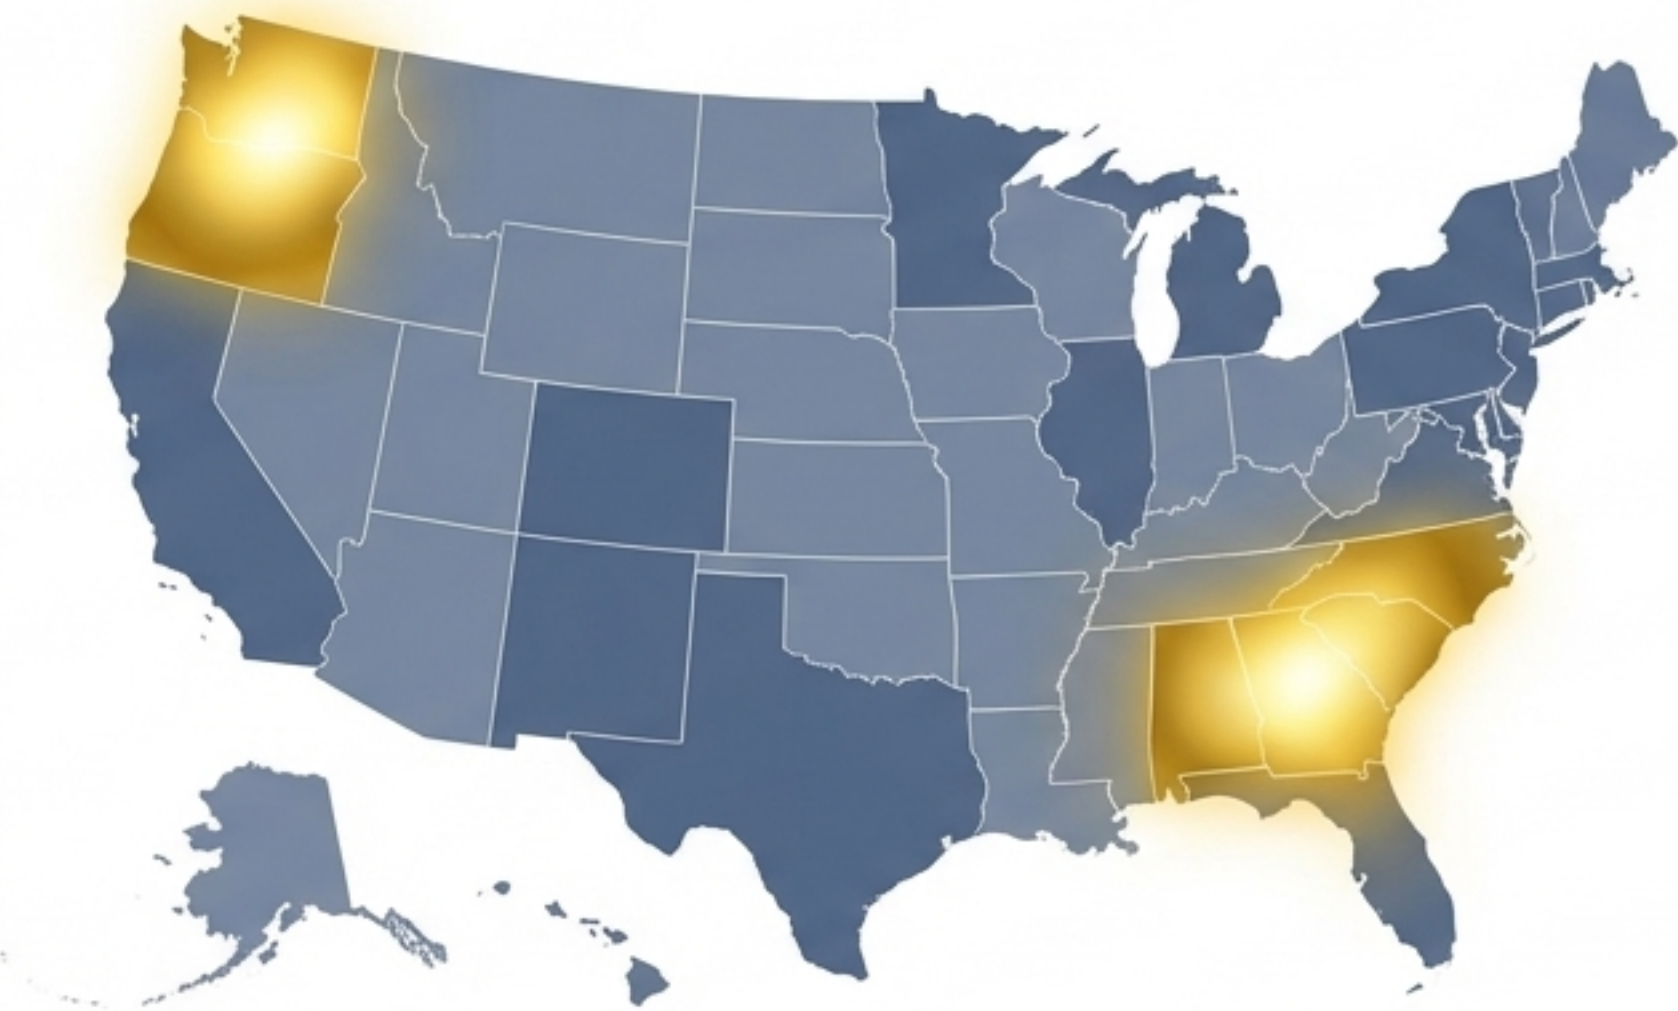

The Engagement Console and Demand Tracker Structure Individual Interactions

The Intelligence Dashboard Aggregates Thousands of Data Points into Clear Signals for Leadership.

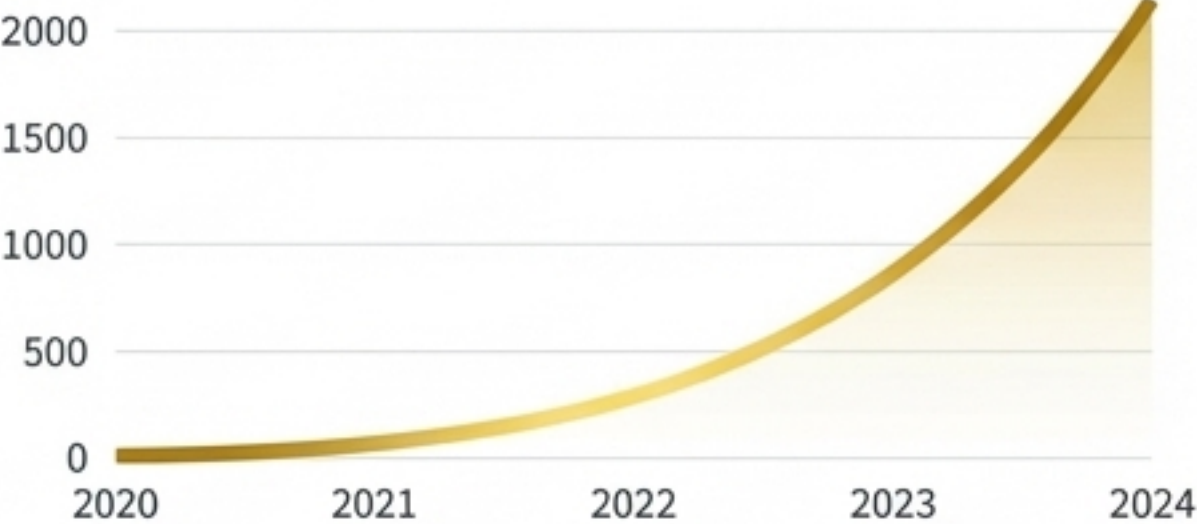

Unmet Credential Demand by Region

(Category: Cybersecurity)

The Platform Provides Direct, Auditable Evidence to Justify Decisions

THE ANECDOTE

“I’ve heard a lot of soldiers are asking for AI training.”

THE EVIDENCE

THE JUSTIFICATION

In Source Sans 3 Regular SMEPIP data shows a 300% year-over-year increase in AI certification requests, justifying a pilot for a centrally funded, baseline AI training program to meet readiness demands outlined in EO 14110.

SMEPIP is Architected with Explicit Safeguards to Preserve Human Authority and Protect Individuals.

EXPLICITLY DOES

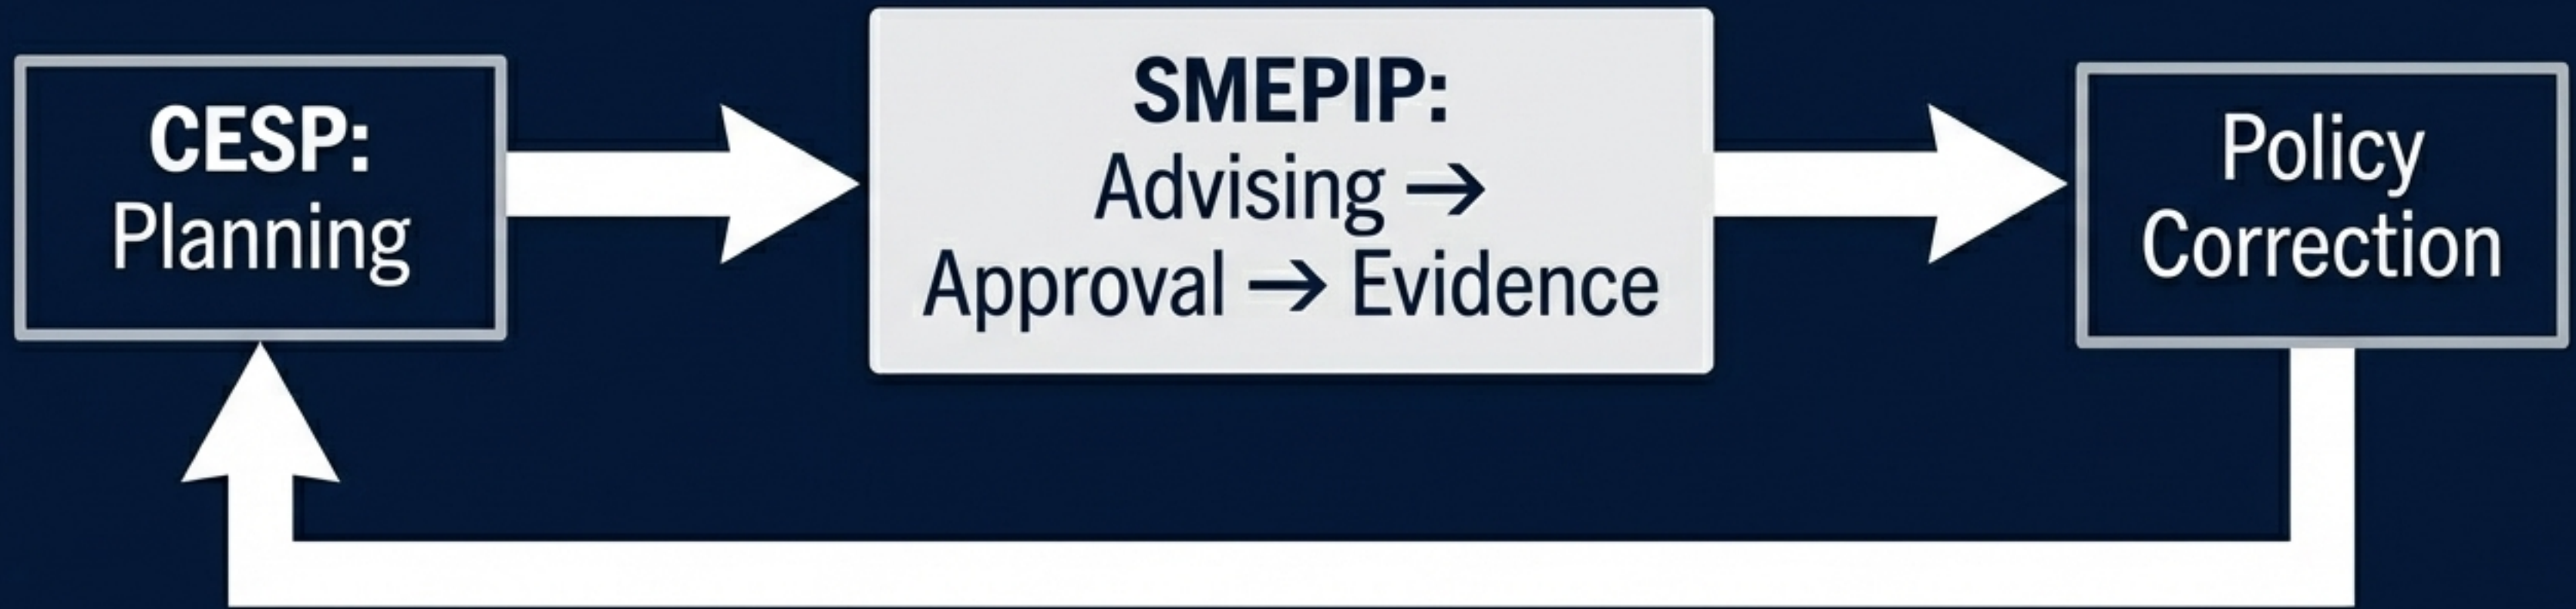

- Preserve Human Authority
- Log Decision Rationale
- Produce Auditable Evidence
- Align with DoD RAI Principles

EXPLICITLY DOES NOT

- Automate Approvals
- Recommend Careers
- Predict Outcomes
- Profile Individuals

SMEPIP Integrates with Existing Processes to Create a Complete Support Lifecycle.

CESP = Individual Planning & Constraint Visibility

SMEPIP = Institutional Engagement & Policy Intelligence

SMEPIP Delivers a Clear Return on Investment: Readiness, Retention, and Reform.

Better Support for Service Members

Reduces friction and accelerates access to critical skills (AI, Cyber).

Defensible Decisions for Leadership

Provides the evidence needed for budgeting, workforce planning, and policy reform.

A More Responsive, Learning System

Creates a feedback loop to ensure DoD educational and transition programs meet current and future force needs.

Let's Move from Anecdote to Evidence

- Secure approval for a funded pilot program in Q3.
- Define technical integration requirements with the [Existing System Team].
- Schedule deep-dive technical demo for the policy working group.
